

ANAGHA KHUDE

URBAN PLANNER

SUMMARY

Urban Planner and Architect with a Master of Urban Planning and Design from Monash University. Skilled in master planning, urban design, strategic planning, land-use planning, planning policy analysis, development assessment, and GIS-based spatial analysis. Experienced in developing evidence-based planning strategies and collaborating across multidisciplinary teams to deliver sustainable urban development outcomes.

CORE COMPETENCIES

Planning and Policy: Master Planning | Strategic Planning | Urban Design | Land Use Planning | Development Assessment | Policy Analysis | Planning Legislation and Policy Interpretation | Stakeholder Engagement | Planning Research & Technical Report Writing | Planning Assessment Reports

Technical Skills: QGIS, ArcGIS | AutoCAD | SketchUp | Microsoft Office Suite | Adobe Photoshop | Adobe InDesign | Adobe Illustrator

EDUCATION

Master of Urban Planning and Design
Monash University

February 2023 – December 2024
Melbourne, VIC

Bachelor of Architecture
Savitribai Phule Pune University

August 2016 – April 2021
Pune, INDIA

EXPERIENCE

Urban Design Intern
MGS Architects

July 2024 – August 2024
Melbourne, VIC

- Contributed to strategic planning and advocacy document for the Flinders University Campus Master Plan.
- Benchmarked university campus housing and innovation precincts to identify planning, mobility, public realm, and development strategies relevant to future campus expansion.
- Analysed planning overlays, zoning frameworks, and development feasibility to inform evidence-based master planning recommendations.
- Produced strategic planning documentation, analytical diagrams, and presentation material to support project communication and stakeholder engagement.
- Worked within a multidisciplinary team to integrate planning, urban design, landscape, and infrastructure considerations into the master planning process.

Graduate Architect
Avishkar Group

September 2021 – December 2022
Pune, INDIA

- Collaborated with senior architects and multi-disciplinary teams on diverse projects, including residential, commercial, and mixed-use developments.
- Prepared technical documentation ensuring compliance with planning and regulatory requirements.
- Conducted spatial analysis using QGIS and ArcGIS to support planning decisions.
- Supported the preparation and coordination of development applications in accordance with local planning regulations, demonstrating strong transferable skills relevant to statutory planning processes.
- Interpreted planning regulations and documentation to support development assessment and compliance.
- Liaised with clients, consultants, and project stakeholders to support planning and design outcomes.
- Managed multiple projects by prioritising tasks, organising workflows, and meeting strict deadlines.

Architectural Intern
Entasys Architects

July 2020 – November 2020
Pune, INDIA

- Assisted in the preparation of construction documents, ensuring accurate representation of design intent.
- Researched local architectural regulations and codes to support the design process and ensure compliance.
- Collaborated with project teams to develop design solutions for a diverse range of building types and scales.

KEY ACADEMIC PROJECTS

Urban Renewal and Economic Activation Strategy- Fishermans Bend, Melbourne (Master's Studio)

- Analysed planning schemes, zoning overlays, land-use policies and statutory planning frameworks to assess development opportunities within the Fishermans Bend precinct.
- Applied QGIS and ArcGIS for spatial analysis, land-use mapping, and identification of adaptive reuse zones and employment-generating land uses to support Master Plan-level recommendations for the precinct.
- Developed evidence-based planning recommendations focused on economic activation, innovation ecosystems, workforce development, and employment-generating land-use strategies.
- Explored strategies to strengthen workforce integration through skills development, industry clustering, and improved connectivity between employment hubs and surrounding communities.
- Prepared a strategic spatial framework and planning report presented to government stakeholders, demonstrating planning documentation, report writing, and statutory compliance skills.

Affordable Housing Strategy- Melton Growth Corridor (Master's Studio)

- Analysed housing affordability challenges, population growth trends, planning policy frameworks, and stakeholder priorities to evaluate barriers to affordable housing delivery within the City of Melton.
- Assessed land-use opportunities, development constraints, and infrastructure considerations to identify strategies supporting sustainable and inclusive housing outcomes.
- Proposed adaptive reuse of underutilised land and designed a blue-green corridor integrating ecological restoration, flood resilience, and community open space in line with water-sensitive urban design and green infrastructure planning standards.
- Developed planning recommendations focused on affordable housing provision, land optimisation, adaptive reuse, and long-term urban growth management.

PROFESSIONAL ASSOCIATIONS AND AFFILIATIONS

- **Planning Institute of Australia**
Graduate Member
- **Council of Architecture, India**
Registered Architect
- **Monash Association of Planning Students (Maps)**
Member, Social Media and Marketing Manager (July 2023- October 2024)
